

**PCUD INCENTIVES**  
**Effective 10/01/16**

**This program is for residential customers only and is limited to one waiver/rebate for each qualifying installed appliance. This program does not apply to the installation of dual-fuel heat pumps, un-vented heaters, logs, or other gas appliances not specified below. Application for rebates for appliances not installed by PCUD must be submitted within 90 days after the equipment installation. If PCUD installs the appliance, we will deduct the applicable rebate(s) from your invoice. PCUD may revise or terminate this program at any time.**

**NATURAL GAS**

**Tap Fee:** (1) Tap fee is \$375 including up to 200' of piping.  
(2) Tap fee is waived for residential customers with connected load of either (i) primary home heating (central systems and/or vented space heaters of at least 50,000 Bth) or (ii) water heating. In instances of both primary home heating and water heating connected load then up to 400' of piping is included.  
(3) Footage over 200' billed upon completion at \$3.00 per ft.

**Rebates:** (1) Rebates apply to residential customers who install or convert the following natural gas appliances resulting in additional load to PCUD. If appliance is used for tap fee waiver then purchase rebate is not applicable.  
(2) Water Heater - \$250  
(3) Primary Home Heating - \$250

**PROPANE GAS**

**Setup Fee:** (1) Setup fee is \$200 for any tank size up to 1,000 gallon and includes up to 25' of service line. For existing service line usable by PCUD the setup fee is \$100.  
(2) Setup fee is waived for residential customers with connected load of either (i) primary home heating (central systems and/or vented space heaters of at least 50,000 Btu) or (ii) water heating. In instances of both primary home heating and water heating connected load then up to 50' of service line is included.  
(3) Footage over 25' billed upon completion at \$3.00 per ft.

***Note: for all propane incentives listed above customer agrees to refund the entire incentive to PCUD if the customer changes to another propane distributor within 2 years from the date of installation of service line (setup fee).***
